ASSESSMENT

Building community and relationships

How do you know if people feel like they belong, like they matter, like they are part of the community? Ask! Survey, focus groups, conversations, cards in pews, little online surveys – website, social media etc. Take note – share information – do better!

What do others say?

What is your community known for?

Is the word on the street about the church true?

Make a plan here to assess, listen and respond to the community
